Memorandum

Date: May 10, 1999

To: Walt Pettit, Executive Director
State Water Resources Control Board
901 P Street
Sacramento, CA 95812

From: Steven R. Ritchie
Chief Deputy Director

Subject: FY 1999-2000 Programs/Funding Related to CALFED Goals and Objectives

In order for the CALFED Bay-Delta Program to be efficient and cost-effective, we will need to coordinate with all of the federal, state, and local agencies that have programs contributing to the goals and objectives of CALFED. We need to collect information on proposed FY 1999-2000 programs and funding that relate to the CALFED goals and objectives. The primary purpose of this information is to communicate to the state and federal legislatures and the stakeholders that CALFED is coordinating with existing programs, and to the extent feasible, existing funding is also meeting CALFED purposes.

We will need to work with you and your staff to develop this information. Please identify a contact (familiar with the CALFED Program is possible) to work with us through this process. Specifically, we need the following information:

- List of programs/projects that are located within the geographic scope of CALFED, and contribute to the goals and objectives of the Program.
- Identify sources of funding for the above programs/projects.
- Identify amount budgeted for the above projects in FY 1999-2000.
- Identify contacts of program staff that can provide the above information, and be available to answer questions.

Please contact Mike Myatt at 657-4476 or Dean McLeod at 653-6993 of my staff, as soon as possible with a contact name so we can work with you on this effort. We need this information by Friday, May 14, 1999. Thank you for your cooperation. I have attached a general matrix to demonstrate the format we are using.
